

King Edward Potato Baker

The King Edward Potato Baker is the ideal way to cook, store and display delicious, perfectly cooked baked potatoes. The Potato baker uses a fan-assisted convection oven to ensure the most efficient cooking method possible. The potatoes, and any other foodstuff you care to cook in the baker, can be thoroughly and evenly cooked without fear of hot spots or burning.

Baked potatoes are highly nutritious and are an increasingly popular choice for today's health conscious public. They appeal to all age groups and their versatility is unrivalled - a wide range of both hot and cold toppings give multiple menu options based around the baked potato.

The King Edward Potato Baker, being both highly visual and attractive, is the ultimate means of cooking and displaying delicious hot baked potatoes enabling you to maximise your sales of this very profitable meal or snack.

Good design never dates and the King Edward Potato Baker will enhance most environments, whatever the décor or period feel. The timeless good looks and colour options of the King Edward range means that your baker will fit in beautifully with any colour scheme or design layout with two available sizes. The fan-assisted main oven cooks a batch of potatoes quickly and evenly whilst the illuminated display area entices your customers to buy with its mouth-watering display of ready to serve baked potatoes.

King Edward Potato Baker

Convection Oven

Heat produced by elements is moved quickly around the oven resulting in greater efficiency in terms of electricity consumption and cooking ability. Also, this reduces heat transference to outer casing.

All King Edward bakers have a highly efficient convection oven with a unique air-flow system providing exceptional cooking results - not just for perfect baked potatoes but for other foods too!

Features & Specifications
